PRESIDENT'S MESSAGE:

President's Message:

Hello Fellow Surveyors,

I would like to thank the membership for your vote of confidence and help as I work through the process of being your president. Many of you know me from being one of the instructors in the Civil Engineering Program at NWTC but I would like to give you a brief history on where I started. I grew up in the Upper Peninsula and lived there until I graduated from college. I started my college career at UW-Marquette where I received my Associate Degree in Science and then transferred into the Surveying Program at Michigan Tech. After graduation from MTU, I took a job out in the Minneapolis area, where I really learned a lot of what I know about boundary surveying. My wife and I moved to Green Bay in 2004 and have really come to love Northeast Wisconsin. I spent most of my career with Mi-Tech as their Survey Manager, here in Green Bay. In 2016 I took over for Rick VanGoethem as the surveying instructor in the Civil Engineering Program at NWTC and have recently taken a position in leadership at the college. When in industry I was part of projects all over the U.S. I am a licensed Professional Surveyor in Wisconsin, Michigan, Minnesota, Iowa, Ohio, North Dakota, and South Dakota.

Now let's get into the meat of this message. This past year has been sort of weird, as 2020 was the year of the pandemic and it is taking up some of 2021 already. We have seen mandates to wear masks, social distance, and most of us have become accustomed to working from home. Through all of this, the surveying industry really didn't seem like it has slowed down, unlike many restaurants and small retail businesses. On the bright side of this pandemic, it seems as though families are spending more time together and getting into the outdoors. Maybe this pandemic will make a bunch of kids realize how cool a profession that works outside is! Okay maybe I'm dreaming.

Here are some updates on this year's events.

It has been decided to postpone the NE Chapter Spring Seminar to fall. In light of the current situation and a recommendation from the Seminar Committee, the board decided to push the seminar out to fall. This hopefully will give time for vaccinations to be administered to much of the population.

A Day in the Life would typically be happening in May but there has not been any communication from the National Railroad Museum to date. I have a feeling this will be another casualty of Covid for this year.

Thank you for taking the time to read my ramblings. I hope that this message finds you safe and healthy. Please let me know if you have any questions or ideas to bring to the board as I am here to serve.

Best Regards,

Howard Herrild III, PLS
President

April 7, 2021

Northeast Chapter of WSLs,

I would like to take this opportunity to thank the Northeast Chapter for your nomination for the WSLs Young Surveyor of the Year for 2021.

This award reflects the efforts of the NE Chapter members who continue to encourage young surveyors like myself to get involved and to be active at both the local and state levels. Being nominated by this Chapter is something that I consider very humbling given the quality and character of its members.

A special thank you to Past President Brad Nelson for presenting me with this award during the WSLs Board meeting at the 72nd Survey Institute and to President Howard Herrild, the first person to encourage me to get involved with the Northeast Chapter and WSLs.

Sincerely,

A handwritten signature in black ink that reads "Mark H. Kamin".

2021 WINTER GENERAL MEETING MINUTES

January 21, 2021 – Liberty Hall in Kimberly, WI

The 2020 Fall General Meeting was held on January 21, 2021 at Liberty Hall in Kimberly, WI. There were 38 members present, including 7 students, and 11 members online when Chapter President Brad Nelson introduced the presenter via online WebEx meeting at 6:30 pm

SPECIAL PRESENTATION

- Mick Heberlein, WisDOT, virtual presented an update on GPS observations as part of the modernization of NSRS and the release of 2022 Datum. Discussion included:
 - Mick discussed the getting GPS observations on passive benchmarks as part of the modernization of the National Spatial Reference System (NSRS) and release of the 2022 Datum. The National Geodetic Survey deadline for submittal of observations is December 31, 2021. NGS is gradually deemphasizing Bluebooking as a data entry tool for user contributed geodetic data in favor of a much more user-friendly OPUS Share
 - GPS observations submitted via OPUS Share will update the passive mark to a calculated 2022 position and contribute toward a better transformation tool from NAD83 to 2022 for data that cannot be easily resurveyed or reprocessed. Examples of this data may include orthophoto, lidar or section corner data.
 - He discussed some requirements/details of the program with the group and encouraged them to think about getting observations in their county. WisDOT has implemented a program to do observations, but they will need partner observations to help ensure that more stations are updated by the deadline
 - He has contacted the county surveyors in Burnett, Douglas, Langlade, LaCrosse and Vernon counties to do some observations and provide feedback on the process today to other county surveyors before they begin observations. Furthermore, this topic will be presented at the 2021 WSLs Institute. It is anticipated that the counties will utilize their own equipment and do the processing themselves, but WisDOT is willing to process properly formatted county collected observations
 - It is important to note that the OPUS Share process can be used to submit new stations for publication in the NGS database when the 2022 datum is released. Counties would then construct and

observe new points in strategic locations or observe older stations not in the database for 2022.

- He emphasized that the counties are free to observe whatever stations are important to them and their needs, but he did share WisDOT's priority list: WisDOT Priority List Not necessarily NGS', not necessarily yours:
 - a. Original HARN stations or replacements
 - b. 10 km stations from NGS's GPSONBM map
 - c. Horizontal WI Height Modernization (WI-HMP) stations:
 - i) With leveled elevations- GPSONBM A-1 Priority
 - ii) Without leveled elevations- GPSONBM B-1 Priority
 - d. WI-HMP stations vertical stations without GNSS observations GPSONBM A-2 Priority
 - e. Others:
 - i) Stations in NGS database, but are not WI-HMP stations - GPSONBM B-2 Authority
 - ii) New marks to be included when 2022 Datum is rolled out

President Nelson thanked Mr. Heberlein for the very informative presentation. President Nelson then called the Winter General Meeting to order at 8:37 pm

A motion was made, seconded and approved to accept the General Meeting minutes of October 22, 2020 as presented in latest Chapter newsletter

A motion was made, seconded and approved to accept the Treasurer's Report as presented in latest Chapter Newsletter. The two Comfort Suite bills from 2020 have finally arrived so those will be taken out of this year's funds

The following reports were given (*email or # virtual)

Newsletter Editors Report (Jill Bostedt)*

- Most classes are now virtual
- Fund-raising Candy bars are for sale!!

Trig-Star (Ryan Duckart)

- Matt O-Rourke is no longer Committee Chair
- Ryan D just received packet from NSPS. Will need to check out forms, how/what to use, virtual test?

Old Business

- With all the Chapters trying to hold their own seminar, as well as WSLS, it was agreed that the Chapter will only hold one seminar a year

New Business

- Bucky's Challenge is cancelled for 2021. Do we still make the \$250 donation? **A motion was made, seconded and approved** to combine Bucky's Challenge \$250 donation with the annual \$1000 Chapter Foundation donation for a total Foundation donation of \$1250
- Annual Chapter Report to WSLS was reviewed before submitting
- Light Squared is back and now branded as Ligado
- Drones will soon need a remote ID according to FFA. It may take 18 months or so to implement
- Institute is next week!
- Discussed charging an extra fee for those attending a NE Chapter General meeting but are not members
- WSLS Committee sign-up sheets will be emailed to all WSLS members soon, if not already
- Use of NE Chapter logo by a member business to show they are part of the Chapter was agreed as acceptable
- Presented Foundation member Jim Wallen with the annual Chapter donation of \$1000 including \$250 donation for Bucky's Challenge

- **A motion was made, seconded and approved** to accept all officer nominations as presented.

The Relo-No-Show-Prints ticket was implemented yesterday morning at Diggers Hotline.

If you submit a Planning-Prints ticket and have member utility companies not respond to that request by the start date and time, planners can now file a Relo-No-Show-Prints ticket. The Relo-No-Show-Prints will default the start date and time to 1 hour from the current date and time, within working hours (6am-6pm, M-F, excluding legal holidays). If filed after normal working hours, the start date and time will be 1 hour from the beginning of the next working day. The 1 hour start date and time is the time member companies have to either provide the prints or contact the ticket filer to let them know when the prints will be provided. They will need to provide those prints as soon as practical, generally no later than 3-4 hours.

One key aspect of the Relo-No-Show-Prints is the ticket filer needs to identify which members have not responded. The Relo-No-Show-Prints ticket should only go to members who have NOT responded by the start date and time.

Diggers Hotline hope is that receiving a Relo-No-Show-Prints ticket will spur the member to respond. There is no guarantee they will respond, but if they do not, those tickets will appear on the reports that are run bi-monthly and reviewed at Diggers Hotline. The Advisory Board, tracks No-Show tickets and that data also goes to the Board of Directors. Hopefully, this will help reduce the amount of Prints tickets which are not responded to.

Relo-no-show is still available for planning tickets (marks on the ground) and dig tickets.

Thank you.
