PRESIDENT'S MESSAGE:

President's Message:

The year has gone by rather quick. Not only on the surveying side but personal side as well. When I became the president my daughter had just started walking. Now, as my tenure is ending she's talking, running, jumping, etc. Crazy how fast life goes by. I would also like to thank Tom Leslie for all the help this year. He really does a fantastic job and doesn't get the credit he deserves. Whenever I had a question or needed assistance he was there with the answer, help and more. Thank you Tom. Our winter meeting is January 11, 2018 at the Swan Club in De Pere. The meeting starts at approximately 5pm for Social hour and the dinner will be at 5:30. Also, please let Tom know if you are coming to the meeting. An accurate head count saves the chapter money by not having to guess at the number of meals we need to order. Please take the 5 minutes and send him an email or give him a call as soon as you can. Also, at the meeting we will have committee sign up sheets available. Please consider signing up. I look forward to seeing you all at our winter meeting and thanks again for letting me lead you all this year.

2017 FALL GENERAL MEETING MINUTES

October 19, 2017 – The Ravine in Green Bay, WI

The 2017 Fall General Meeting was held on October 19, 2017 at The Ravine in Green Bay, WI. There were 70 members present, including 31 students, when Chapter President Troy Hewitt introduced:

Presentation

Tony Gromacki, Wisconsin Professional Land Surveyor, presented the latest activity in the proposed changes to AE-7. The discussion included:

- Additional wording to **7.01 Scope (a)**
- Addition/removal of wording to **7.05 Maps**
- Additional “exceptions” in **7.025 Survey report, requirements**
- Change to **7.02 Definitions**

More discussions are planned around the State so the “list” may be further updated before being formally presented to WSLs members

President Hewitt thanked Tony Gromacki for the very informative update. President Hewitt then called the General Meeting to order at 8:21 pm

QUOTES HEARD FROM CLIENTS

“Why did they let me build my house on their property? Someone should have stopped me.”

“I got a coordinate from google earth, and laid out my property line with my hand held GPS. What do you mean it is not right?.”

“My deed says I own 100 acres. Your survey shows only 99.5 acres. You stole some of my land.”

“It’s got to be right. I had it surveyed by my neighbor’s cousin’s friend who used to work for the Water Department.”

Dear Mr. Leslie:

On behalf of the NWTC Civil Engineering Technology Club and the students participating in the 2018 NSPS student competition, thank you for your generous donation. This will be essential in covering our travel and hotel costs for the competition.

The 2018 NSPS Student competition will be held February 17- 21 in Las Vegas, Nevada. Since the previous letter we have narrowed down the students participating to six. Of these six students each student possesses varying skills that demonstrate all of the requirements known of the competition thus far.

The students participating in the competition include:

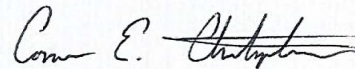

- Jared Block
- Brock Rupiper
- Tyler Hill
- Zach Tillman
- Dylan Larson
- Connor Christopherson

These students performed satisfactory in taping, field notes, leveling exercises, as well as other aspects of surveying. We feel as though with this combined experience and the skill sets demonstrated by these students that we will represent NWTC well at this competition. We will be preparing these last few months prior to the competition by refreshing ourselves on the equipment, mapping techniques, and instructor and self-directed exercises.

Again thank you for your support!

With much appreciation,

Dear Troy;

It is with great excitement that we welcome you to the newly renovated 45°N - 90°W Geographic Marker in Marathon County. The 45°N - 90°W marker is the exact halfway-point between the Equator and the North Pole, and the halfway-point between the Greenwich Meridian and the International Date Line. There are only four such locations in the world . . . two are over oceans (45°S - 90°E and 45°S - 90°W), one is in a remote region in China (45°N - 90°E), and we are lucky enough to have one here in Central Wisconsin.

Until recently the site consisted of a small parking lot and a non-descript brass marker. A close reading of the sign in the parking lot revealed that the actual 45°N - 90°W location was approximately 1000 feet to the east, in the center of a corn field. Through your generosity and hard work, and that of numerous other individuals and organizations, the 45°N - 90°W Geographic Marker has undergone quite a transformation.

Today when you visit the 45°N - 90°W Marker you will find a quarter mile long, tree-lined path that takes you from the expanded parking lot, along the cornfield, to the precise 45°N - 90°W location. There, visitors can truly appreciate the geographical uniqueness of the location by stepping onto a fifteen-foot circular monument with demarcations of the 45°N latitudinal and 90°W longitudinal lines; at the center of which sits a square of ruby red granite with inset brass surveying plate that marks the exact 45°N - 90°W location. None of this would have been possible without your efforts and we sincerely thank you for making this project a reality!

While renovations at the 45°N - 90°W Geographic Marker are set to continue, with the installation of detailed signs explaining navigation by latitude and longitude and recognizing the contributions of donors to the project, the site is open and we invite you to come stand at the center of the Northwest Hemisphere. All those that visit the marker are encouraged to stop at the Wausau/Central Wisconsin Convention and Visitors Bureau to sign the official registration book and receive a commemorative coin in recognition of becoming an "Official Member of the 45°N - 90°W Club." Thousands of people from around the globe have signed the book since its origin in 1978.

Thank you again for your generous gift and we look forward to seeing you at the 45°N - 90°W Marker. We anticipate holding a formal Ribbon Cutting Ceremony at the 45°N - 90°W Geographic Marker in the Spring of 2018, after all of the final renovations are completed. As a valued contributor to this renovation, we will certainly contact you in advance of the event.

Sincerely,

Christopher L. Fieri

- Schedule testing dates with the schools and confirm the number of students interested in taking the exam
- Notify the school's newspaper as well as local news media
- Organize a team to assist in the proctoring of the exam. You will need at least two people. The exam is a combination of having the most correct answers in the shortest amount of time. A stopwatch is needed
- Administer the exam, and immediately score them
- Contact the winners and schedule a time to present them with the award money and certificates
- Submit test results to the WSLs Trig*Star representative and to NSPS

Report any committee activity to the General Membership and Board of Director meetings

A DAY IN THE LIFE

May 8 thru May 11, 2018
National Railroad Museum

**NEVER TO EARLY
TO ASK!**

**NEVER TO EARLY
TO ASK!**

Looking for Volunteers to help teach young children (grades 3-8) about surveying & how surveyors help shaped America. There may be a few changes to the program to ensure everyone gets a chance to participate in our exercises

Please consider volunteering your time for any of the dates. There are two shifts per day, 8:15-11:30am and 11:30-2:30pm, with three (3) people per shift.

Lunch is provided by the Museum

Please contact Aaron Ballast @ 406-1477 or tnt-pls@tntsurveyors.com if interested in volunteering for any shift(s)

THANK YOU!
