PRESIDENTS MESSAGE:

PRESIDENTS MESSAGE:

Greetings to All:

Summer has gone by too quickly and here we are into another season. Set your calendars for the Thursday October 17th NE Chapter Fall meeting at Fox Banquets in Appleton. The food is always outstanding there and a majority of our members are in the Fox Valley, so we should have great attendance. Our presenter will be Rodney Key from the DOT. His topic will be on Transportation Project Plats and he will also enlighten us on recently published survey data.

It was nice to see a good turnout for the July Golf and Trap Shoot Outing at the Branch River Country Club. We can all agree that the place is terrific and we will plan to return next year. Miles Winkler from the DNR put on a fun PowerPoint presentation regarding floodplains and his Canadian fishing trip. Many thanks to all involved in organizing this event and to the businesses that donated the great door prizes.

It is that time of the year for the Chapter and State nominating committees to seek out members for future office positions. If you receive that call, please consider saying yes. You will find it very beneficial to get involved. By volunteering, you will interact with many fellow professionals who will enhance and broaden your field of experience. It's also a great way to form new friendships and professional relationships.

I hope to see you on the 17th.

Tony Lulloff
Chapter President

LAND RECORDS (Ryan Duckart)

- Investors led by Harbinger Capital Partners have filed a \$1.9 billion lawsuit against a trio of GPS receiver manufacturers over LightSquared, a now bankrupt firm that still hopes to build a wireless broadband network across the United States. The investors are seeking compensation for losses incurred when the Federal Communications Commission denied LightSquared permission to build its wholesale wireless broadband communications network
- LightSquared, the now bankrupt company that for more than two years sought to operate broadband on a spectrum that studies have shown would interfere with GPS, is seeking court approval of an auction of its assets. The expected successful bidder is [Dish Network Corp. \(DISH\)](#). The auction proceedings, however, have run into [legal difficulties](#). A judge is now setting new [auction rules](#). NSPS, through the [GPS Innovation Alliance](#), continues to be

engaged in efforts to assure that LightSquared, or any successor, does not create GPS interference

- A memo published on July 17th by the Wisconsin Department of Administration (DOA) is aimed at helping stakeholders understand recent changes made to the Wisconsin Land Information Program (WLIP). The changes, which are generally viewed as very positive by land information and GIS professionals in the state, were made as part of the recently-signed "Act 20" state budget bill. The memo notes changes to the WLIP fall under five broad categories:

- Initiative to Create a Statewide Digital Parcel Map
- Increase in Base Budget and Training & Education Grant Eligibility
- Increase in Land Information Fund Revenue
- Update Frequency for County Land Information Plans
- Penalties and Deadlines

Special Presentation

Miles Winkler, Water Management Engineer and DNR Floodplain contact for Shawano, Brown, Calumet, Door, Kewaunee, Manitowoc, Menominee and Oconto Counties. Topics included: FEMA maps, flood plain & fill issues, LOMA vs. LOMAR, LOMC, CLOMR, FIRM maps, e-LOMA, Title 44, MT-EZ Map amendments, MT-1 vs. MT-2, responsibilities of those involved, Technical Bulletin 10-01 basement requirements and Community acknowledgment forms, just to name a few. Prizes were handed out to those who participated in the golf outing and trap shoot held before today's meeting. A full list of winners will be given in the October newsletter

President Lulloff then called the General Meeting to order at 8:33 pm

A motion was made, seconded and approved to accept the General Meeting minutes of April 18, 2013

- Members can sign up for the "Great Affairs" email from NSPS – it is not automatic with a membership
- Lisa V is up for re-election as NSPS Director (a 3 year term). Wisconsin is now 100% so she now has a vote

After January 1, 2015 the portion of the recording fees that counties must submit to the Wisconsin Department of Administration will increase by \$5. That money will be used for funding programs in counties that meet the requirements of establishing a Land Information Office, engaging in

records modernization, and providing internet access to land records. In addition, a statewide digital parcel map will be aggregated from county parcel datasets and the minimum base budget grant will increase from \$50,000 to \$100,000.
